### Louth GAA Statement on CCCC Proposal

21.11.2023

Louth GAA held a special meeting on Monday 20th to discuss the recent proposals from the CCCC regarding the development of hurling in Louth and our participation in the Allianz Hurling League from 2025.

Representatives from across the county, including club and county players, coaches, club administrators were in attendance alongside members of our Management Committee. The meeting discussed a number of discrepancies related to the proposal document and in particular around spending figures released to support the document.

All in attendance were united in calling for the proposals to be rejected and urge all counties to support us, and the other effected counties in voting against this at the Ard Chomhairle meeting on 2nd December.

We do however call for a serious discussion on hurling and it's development within the smaller counties to take place in an open and transparent manner, one that allows for proportionate representation of our hurling fraternity alongside county officials to ensure that all available avenues outside of the current proposals are examined to find a practical pathway for our young Gaels to continue to represent Louth at Inter-County level for years to come.

Louth GAA
